Student Editorial Board for Volume 25

Student Editorial Board members are appointed by members of the Editorial Board to serve for at least 1 year. Student members independently review manuscripts, which are also sent to their sponsoring board members. Participation on the board provides students with experience in the review process and provides authors of manuscripts with additional feedback. During the past year the following students offered generously of their time to serve the journal as members of the Student Editorial Board. We are grateful for the contribution that each one has made to *Law and Human Behavior*.

Lucy Arnot, Department of Psychology, City University of New York
