Information for Contributors
American Journal of Orthopsychiatry
www.apa.org/journals/ort

The Journal is dedicated to informing public policy and professional practice and to the expansion of knowledge relating to mental health and human development from a multidisciplinary and interprofessional perspective. Especially welcome are research, clinical, theoretical, or policy papers that are directed at development of concept or theory, reconceptualization of major issues and/or previous findings, or policy applications related to human rights and social justice. Selection of articles for publication is based on originality, adequacy of method, significance of findings, contribution to theory, relevance to research, service delivery and public policy, and clarity and brevity of presentation.

Masked review policy. Articles published in the Journal are selected from unsolicited submissions, papers invited by the Editor, and manuscripts of presentations at American Orthopsychiatric Association meetings. Whatever their source, all articles considered for publication in the Journal are subject to a process of masked peer review.

Publication policies. Manuscripts of presentations at Ortho meetings must be submitted in timely fashion to the Journal in accordance with submission guidelines. Publication elsewhere than in the Journal or by the Association is prohibited prior to release by the Editor.

Manuscripts must be submitted exclusively for publication in the American Journal of Orthopsychiatry. Papers previously published or now under consideration elsewhere are not eligible for editorial review. Authors of accepted manuscripts will be required to transfer copyright to APA.

Submissions. Electronic submission is required. Submit manuscripts electronically (.rtf, PDF, or .doc files) via the Manuscript Submission Portal at www.apa.org/journals/ort/submission. General correspondence may be directed to AJOrthopsychiatry@gmail.com, or to Nancy Felipe Russo, Editor American Journal of Orthopsychiatry Department of Psychology Arizona State University Box 871104 Tempe, Arizona 85287-1104

Electronic mail is preferred.

Manuscript preparation. Submissions should be double-spaced, with generous margins. Manuscripts should be in final form, with consistent headings and subheadings in roman typeface (i.e., no boldface, italics, etc.). Manuscripts are limited to 30 pages, inclusive of references, tables, and figures. The abstract should be a maximum of 180 words typed on a separate page.

The entire manuscript, including quotations, footnotes, references, and tables, must be double-spaced.

Footnotes should be worked back into the text or deleted, if possible. Where essential, they should appear on a page by themselves following the references and be indicated by superscript arabic numerals.

References should conform with the style set forth in the Publication Manual of the American Psychological Association (5th ed.).

Figures. Graphics files should be supplied as Tiff, EPS, or PowerPoint. The minimum line weight for line art is 0.5 point for optimal printing. When possible, please place symbol legends below the figure image instead of to the side. Original color figures can be printed in color at the editor’s and publisher’s discretion and provided the author agrees to pay $255 for one figure, $425 for two figures, $575 for three figures, $675 for four figures, and $55 for each additional figure. Only photocopies or computer-generated duplicates should be submitted, because rejected manuscripts are disposed of following review.

Permissions. Authors are required to obtain and provide to the editor on final acceptance all necessary permissions to reproduce in print and electronic format any copyrighted work, including, for example, text materials (or portions thereof) and photographs of people.

Preparing files for production. If your manuscript is accepted for publication, please follow the guidelines for file formats and naming provided at www.apa.org/journals/preparing_electronic_files.html. Please ensure that the final version for production includes a byline and full author note for typesetting.

The American Orthopsychiatric Association assumes no responsibility for any statements of fact or opinion in the papers printed. Nor does acceptance of advertising in the Journal imply endorsement by the Association of any products or services advertised.

The Editorial board reserves the right to reject any manuscript, to suggest modifications prior to publication, and to edit accepted manuscripts in conformance with Journal style and standards.
