

Reviewer Acknowledgment

The *International Journal of Play Therapy* is very fortunate to have a dedicated Editorial Advisory Board that works tirelessly to review manuscripts for this publication. Because of the number of manuscripts that are submitted to the journal, we also rely on ad hoc reviewers to make sure that manuscripts are reviewed in a timely way. This past year, several ad hoc reviewers graciously agreed to assist in reviewing manuscript submissions. The Editor thanks the following individuals for their assistance in this integral step of the manuscript submission process.

Sue Ammen
