

Acknowledgment

The editorial team of *Psychology of Violence* thanks the following individuals who provided reviews between August 2021 and August 2022. By sharing their time and expertise, these ad hoc reviewers have helped *Psychology of Violence* fulfill its mission to publish high-quality research that expands understanding of the causes and consequences of violence, as well as effective prevention and treatment approaches. We are particularly grateful that reviewers were able to find the time to support the peer review process during the still unsettled times due to the long COVID-19 pandemic. Thank you for your continued efforts to publish the best research on the psychology of violence.
