Laurel Furumoto, Ph.D.
Department of Psychology
Wellesley College
Wellesley 81, Massachusetts

Dear Dr. Furumoto:

We are writing to inform you that the questionnaire you filled out for the early laboratory survey has been received. The added information you included was a welcome addition to the data sheet. Thank you for aiding us in this project.

Your expressed interest in Mary Whiton Calkins's contribution to Psychology and plans to work full-time on this project commanded my attention. In May of this year The International Society for the History of the Behavioral and Social Sciences is meeting at Akron University. I have enclosed materials and information re this meeting in the hopes you may be interested. Concerning your interest in Miss Calkins, however, Dr. Orlo Strunk of Boston University School of Theology, Boston, Massachusetts 02215, has made a proposal for a paper on Miss Calkins to be presented at the ISHOBS meeting in May. May I suggest you contact him on the subject, you might be able to assist each other in your mutual interest.

Sincerely,

John A. Popplestone, Ph.D.
