Manuscript Title:

Number of studies included:

Corresponding Author:

1. Data

- A. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- B. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- C. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- D. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- E. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- F. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- G. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- H. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.
- I. Study ____ (Select One)
- ☐ I agree to make the data available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data available in a trusted open-access repository.
 - ☐ The data will not be available.

2. Data analytic methods and code

- A. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- B. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- C. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- D. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- E. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- F. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- G. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- H. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.
- I. Study ____ (Select One)
- ☐ I agree to make the data analytic methods and code available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the data analytic methods and code available in a trusted open-access repository.
 - ☐ The data analytic methods and code will not be available.

3. Research materials

- A. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- B. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- C. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- D. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- E. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- F. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- G. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- H. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
- I. Study ____ (Select One)
- ☐ I agree to make the research material available in a trusted open-access repository.
 - ☐ I agree to make some, but not all, of the research material available in a trusted open-access repository.
 - ☐ The research material will not be available.
