Supplementary Materials

Below are the stimuli sets in these three experiments. Agr. refers to naming agreement rate, L refers to length (measured) in letters, Fam refers to familiarity, VC refers to visual complexity (measured in file size), WF refers to word frequency (\log_{10}), and Db refers to Database or the source of the images. Most of the images come from the BOSS database (Brodeur et al., 2010, 2014) (BS; 322). Additional pictures come from Moreno-Martinez and Montoro (2012) (MM; 26) and from Wikimedia Commons (WC; 26). The rest come from the UCSD Vision and Memory lab stimuli resources: from Brady et al. (2008) (B08; 4) and from the exemplar section of Brady et al. (2013) (B13; 2), from the Pixabay website (PB;3) and from the Maxpixel website (MP;1)
